

Amber Tiger delivers complete unmanned platform projects utilising both rotary and fixed wing Remotely Piloted Air Systems.

Our Director of Unmanned Systems holds a CAA accreditation to Operate Unmanned Aerial Systems and has huge experience of all elements of operations on both manned and unmanned aerial systems.

Our team has over 5 years experience working with the Hermes 450 UAV in Afghanistan supporting coalition troops in a huge variety of scenarios.

Amber Tiger delivers complete unmanned platform projects utilising both rotary and fixed wing Remotely Piloted Air Systems.

Our team can design the service, provide the equipment, training and CAA approved pilots, or provide a total operational service anywhere in the world.

Services delivered by Amber Tiger include:

- Pipeline Inspection
- Building/Engineering Inspection
- Support to the film and TV industry
- Support to the security industry
- UAV Pilot Training
